CIEH Level 2 Award in Principles of Risk Assessment

This qualification aims to improve occupational health and safety, by providing learners with an understanding of the basic principles of risk assessment.

Health and Safety legislation has specific requirements for risk assessment within the working environment. This course is designed to give all employees an awareness of the process and the ability to contribute to it. While not all employees will have to undertake risk assessments themselves, they are expected to always act to protect their own health and safety and that of other workers.

Safe Systems of Work

Course Programme;
